

CLUB SEATS

SGA's Club Seats feature a comfortable, vinyl upholstered bottom and back cushion, and each seat is equipped with removable armrests and a cup-holder. They can be positioned individually or ganged together to maximize efficiency and safety. The self-rising seat bottoms automatically tip up when not in use, providing a wider accessway to the main aisle.

Our Club Seats look great court-side, or as a VIP viewing section. They're also the perfect complement to our First Class Audience Risers, and are a definite upgrade over the commonly available venue chairs.
